

Do not let the Bell "Wolves" own the chicken coop you already allow them to dominate. The ILECs are already allowed to undercut their competition by using revenue from regulated telecomm services to subsidize unregulated data services which allows the services to be priced at below realistic cost and in turn offered at below market rates to consumers. Competition requires competitors to be alive. If the FCC lifts the dominant classification from the Local Exchange Carriers (Bells), it will limit competition to a duopoly consisting of a bell and a cable company. Competition in the American Telecom marketplace will not be incentivized, it will be torpedoed. ISPs and CLECs will die, consumers will be deprived of choice and the FCC will be wholly to blame for the travesty. DO NOT DO IT. Chairman Powell: Please do not sell out to BIG BUSINESS, at the expense of competition and the small businesses of our country.
